## SUMMARY

I am a full-stack software engineer, I have a wide array of interests and I enjoy finding solutions. I have a strong passion for developing, learning and completing projects. I graduated from the University of Hawaii with a bachelor's degree in Information and Computer Sciences in 2015. I have over five years of experience as a Software Engineer. In my free time I have been expanding my knowledge on Machine Learning and Data Science by taking courses on these topics and working on projects to reinforce topics that I've learned.

## EDUCATION

University of Hawaii at Manoa – Manoa, HI  
Graduated: Fall 2015 B.A. Information and Computer Sciences

## CERTIFICATIONS

- CompTIA Security + CE SYS-501
- Information Assurance (CNSS 4011 and CNSS 4012)

## SOFT SKILLS

- **Strong Interpersonal skills**- Able to communicate effectively in team environments. Communicates clearly with technical and non-technical persons.
- **Excellent Team player** – Works well with team members, creating high synergy within teams to achieve tasks with high quality.
